

Drone Licence A1-A3 Practice Test PDF

License License A1-A3 Practice Test PDF Questions Available Here at:

<https://www.easy-quizzz.com/gb/driving-theory-test-practice/drone-licence-test/a1-a3-drone-licence/quiz.html>

Enrolling now you will get access to 1022 questions in a unique set of A1-A3 Practice Test

Options:

- A. 1 to 2 eighths
- B. 3 to 4 eighths
- C. 5 to 7 eighths

Answer: C

Explanation:

Cloudiness, or in technical terms sky coverage, represents the fraction of the sky's vault covered by clouds, in a nutshell representing the ratio of the part of the sky covered to the total area of the sky.

Sky cover is assessed visually during ground-based observations by meteorological stations and the fraction representing it is expressed in eighths, ranging from 0 to 8, for what is referred to as BROKEN (coverage with gaps) is valuated from 5 to 7 eighths.

Question 2

Under the current UK open category rules for A1-A3 operations, who is ultimately responsible for the safe conduct of a drone flight?

Options:

- A. The pilot and the commissioning company (client) share equal responsibility.
- B. Only the pilot and/or his organization (operator) is responsible.
- C. The client commissioning the work assumes full responsibility.

Answer: B

<https://www.easy-quizzz.com/gb/>

Explanation:

Under UK open category rules, responsibility for safe drone operation rests solely with the pilot and/or their organisation, not the commissioning client.

Question 3

When flying a UAV in Visual Line of Sight (VLOS) conditions under UK regulations, what are the requirements for the remote pilot's visibility and identification?

Options:

- A. The remote pilot must be visible and clearly identifiable only during critical operations.
- B. The remote pilot must be visible and clearly identifiable during both critical and non-critical

Options:

- A. PIL (Licensed Pilot)
- B. PIC (Pilot in Command)
- C. PIS (Pilot in Support)

Answer: B

Explanation:

The pilot in command (PIC) of an aircraft is the person who is ultimately responsible for its operation and safety during flight.

The PIC must be legally certified (or otherwise authorized) to operate the aircraft for the specific flight and flying conditions, but it is not necessary to actually manipulate the controls at any given time.

The PIC is the person legally responsible for the aircraft and its safety and operation of the flight, and would normally be primarily responsible for a breach of a flight rule.

Question 5

Looking at this image, what kind of AIR SPACE is represented?

Options:

- A. ATZ (Aerodrome Traffic Zone)
- B. CTR (Control Traffic Region)
- C. Military Activities

Answer: A

Explanation:

.....

Question 6

In the case of professional drone use, the 'family head' INSURANCE is enough to fulfill the obligations imposed by the Regulation?

Options:

- A. Yes
- B. Yes, but only if the UAV weighs less than 300 grams
- C. No, a specific policy is required

Answer: C

Explanation:

Family insurance typically does not cover professional drone use; specific insurance policies are required to meet regulatory obligations for commercial operations.

Question 7

If we are in the Open A1 category with FOLLOW ME mode active:

Options:

- A. The maximum distance of the UAV from the pilot may be 50 meters
- B. The maximum distance of the UAV from the pilot may be a maximum of 100 meters
- C. The maximum distance of the UAV from the pilot may be 150 meters

Answer: A

Explanation:

In Open A1 category with FOLLOW ME mode active, the maximum distance the UAV can be from the pilot is 50 metres to ensure safe control and monitoring.

Question 8

In order to register on D-FLIGHT, is it necessary to have obtained the certificate of competence first?

Options:

- A. Yes, in any case
- B. No, as registration can also be carried out by the operator who is not obliged to also have a pilot certificate
- C. No, but registration will be required before the first flight can take place

Answer: B

Explanation:

Registration on D-FLIGHT can be completed by the operator without requiring the prior possession of a pilot certificate, meaning a certificate of competence is not mandatory before registration.

Question 9

If I am interested in the OPEN CATEGORY A1-A3 PILOT CERTIFICATE, do I have to attend a classroom course?

Options:

- A. It is not compulsory, but I can still do it to have a better preparation
- B. No
- C. Yes

Answer: A

Explanation:

Attending a classroom course is not compulsory for obtaining the OPEN CATEGORY A1-A3 pilot certificate, but it is recommended for better preparation and understanding.

Question 10

As a Remote Pilot, am I always obliged to comply with what is stated in the USER MANUAL?

Options:

- A. Yes always
- B. No
- C. Yes, but only if what is stated in the Manual does not conflict with legal or regulatory provisions

Answer: C

Explanation:

Remote pilots must comply with the user manual's instructions only insofar as they do not conflict with existing legal or regulatory provisions.
